

COMPACT SYSTEM ...
for fat glazes

THE CHOCO COMBINO -
future-oriented and innovative

The Choco Combino - future-oriented and innovative ...

SCHOKO-COMBINO

- Modular design
- Simple, fast product changeover
- Adjustable haze / fillet unit
- Adjustable belt speed
- Optimal 3-point glaze tempering
- External heating system
- Easy to clean
- High-performance pump made of stainless steel

The Choco Combino was developed with the future in mind, so that it can also be integrated into a Combino belt system.

With the innovative module for fat glazes you achieve results in the premium segment.

The thermal unit takes into account the specific requirements for the processing of fat glaze:

- Double walled material container for uniform temperature
- Fast material support from powerful diaphragm pump
- Smoothed coating by using a ceramic heat emitter
- Integrated thermal unit on the belt system for optimum warming of pastries

Take advantage of our experience as a specialist
in the field of pastry finishing and invest in the bright future
of your business.

...for finest bakery products
